

Services Provided by the University

1. Libraries: The university provides a number of libraries for professors, students and researchers. These libraries are available in four types, as follows:

- Virtual Library:** Available online on the main website of the university and college.
- Central Library:** located in a dedicated building, it provides paper resources with a quiet atmosphere for viewing, with the possibility of short-term borrowing and photography.
- Postgraduate Libraries:** There are departments of the college in which there are postgraduate studies to serve our dear students.
- Free Libraries:** are available in all departments of the college to provide free curricula for postgraduate students through annual borrowing.

2. Digital Communication Services: The College of Education at the University of Misan provides free Internet services to all professors and students in order to obtain knowledge and keep pace with scientific development.

3. Development and Rehabilitation Division: Through this unit, the University of Misan provides development and qualification courses for university graduates and all specializations in order to help graduates enter the labor market.

4. Educational Platforms: Misan University provides educational services through the electronic platform Moodle for all students, as this platform is considered one of the most prestigious educational platforms.

5. Electronic Follow-up Unit: The unit, which consists of a team specialized in modern electronic technologies, assists students by solving electronic problems that coincide with lecture periods and electronic exams.

6. Student Reception Committees: The college forms committees annually to receive new students, to assist them in completing admission and registration procedures in all scientific departments.

7. Psychological Counseling Committees: The college forms annually student counseling committees that take it upon themselves to provide a university environment in harmony with the college's goals and vision.

8. Student Activities: The college provides a space for student sports and other activities to develop the creative side of students.

9. University Activities and Events: The university provides the entertainment field for students by allocating times for university events such as (University Day), and other scientific and entertainment activities outside the classroom, to provide students with some entertainment.
